

YS2R6X400E9183544 / BMS, Brake management system / E 37, ABS control unit / ABS E / T, Sensors and monitors / T96, EBL brake pressure sensor

T96, EBL brake pressure sensor

T96, EBL brake pressure sensor

EBL stands for Electronic brake force limiter.

The ABS control unit measures the control pressure in the brake system rear circuit using the EBL brake pressure sensor. The pressure value is needed to allow the control unit to adjust the brake pressure in the rear circuit to the vehicle load.
