

YS2R6X400E9183544 / GMS, Gearbox management system / E 5, GMS control unit / OPC / T, Sensors and monitors / T108, Position sensor for lateral stroke

## C 101, Connector

From front, round sockets.Cable side, round sockets.From front, round pins.Cable side, round pins.

C 101, Connector

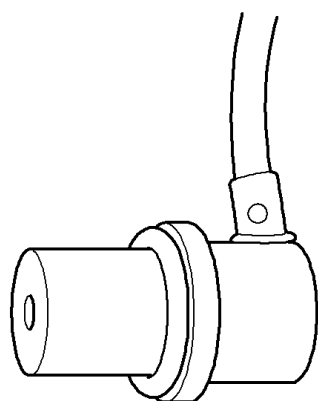

## E 5, GMS control unit

En för OPC och en för TMS

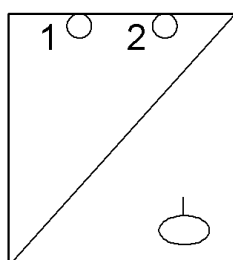

## T 108, Position sensor for lateral stroke

Analogue inductive position sensor.

| Pin: | Task:                                   | Signal type:                          | Source/Destination:      |
|------|---|---------------------------------------|--------------------------|
| 1    | Position information for lateral stroke | Output signal voltage, 50% PWM signal | Control unit (E5) Pin C2 |
| 2    | Voltage supply                          | Input signal voltage, 12V             | Control unit (E5) Pin C6 |
