D 61, Brake pedal sensor

The brake pedal sensor consists of two integrated Hall effect sensors working in parallel.

1. Ground, sensor 1
2. Ground, sensor 2
3. Supply voltage, + 5 V, sensor 2
4. Output signal, voltage varying according to pedal position, sensor 2
5. Supply voltage, voltage varying according to pedal position, sensor 1
6. Output signal, sensor 2

D 61, Brake pedal sensor
