

YS2R6X400E9183544 / VIS, Visibility system / E 32, CUV control unit / CUV1 / L, Lamps / L36, Work light

L36, Work light

L36, Work light

Circuit which activates the work light which is connected to the control unit output. An extra connection for the work light is available on connector C489, pin 1. The circuit is activated via the CUV control unit by the work light switch (S18/S58) which is in lighting module S140. The circuit can also be activated from bodybuilder connector C489, pin 8.

Maximum load on the control unit output is 12 A. On control unit versions with assembly part number 2025647, 2025648, 2025649, 2025650, 2025651, 2025652, 2025653, the maximum load is limited to 6 A.

Work light

Indicates that the control unit output is activated.
