

YS2R6X400E5345662 / COO, Coordinator / E 30, COO control unit / COO7 / B, Break and make switches / B49, Make switch for manual exhaust brake

B49, Make switch for manual exhaust brake

B49, Make switch for manual exhaust brake

The 'make' contact is used to activate the exhaust brake.

The make switch acts as a foot activated switch for the exhaust brake. It is of two-pin design, and on activation it sends a grounding signal to the coordinator.

Make switch for manual exhaust brake

Status on coordinator pin A20. Active when circuit closed and 0 V.
